PROFESSIONAL SUMMARY

Aspiring web developer currently pursuing a Bachelor of Computer Applications (BCA) at Integral University, Lucknow. Proficient in HTML5, CSS3, JavaScript, WordPress, and GitHub with hands-on experience building fully mobile-responsive websites. Passionate about turning ideas into clean, accessible web experiences — from structured layouts to interactive scripts. Version control with GitHub is a core part of my workflow. Continuously learning and building toward a career in software development.

CORE SKILLS

Front-End Development

- HTML5 (Semantic Markup)
- CSS3 (Layouts, Flexbox, Responsive Design)
- JavaScript (DOM Manipulation, Basic Interactivity)
- WordPress
- Mobile-Responsive Web Design
- Cross-Device Compatibility

Web Development Tools

- GitHub (Version Control)
 - Website Deployment
 - Browser Developer Tools
 - Debugging Front-End Code
-

PROJECTS

Age Calculator Website

<https://nx-ishen.github.io/AGE-CALCULATOR-WEBSITE/>

Technologies: HTML5, CSS3, JavaScript

An interactive age calculator that computes a user's exact age in years, months, and days from their date of birth. Built with vanilla JavaScript and responsive CSS.

Professional Portfolio Website

<https://nx-ishen.github.io/Yash-Tiwari-Portfolio/>

Technologies: HTML5, CSS3, JavaScript

A personal portfolio website showcasing projects, skills, and contact information. Fully mobile-responsive with a clean, modern layout.

Fully Functional Calculator

<https://nx-ishen.github.io/CALCULATOR/>

Technologies: HTML5, CSS3, JavaScript

A browser-based calculator supporting standard arithmetic operations with a responsive UI and keyboard-friendly interaction.
